LANGUAGES

- English (Working Proficiency)
- Urdu (Native)

PROFILE SUMMARY

Full-Stack Developer (MERN + Next.js) with 3+ years of experience, and founder of Atmandi, a livestock marketplace built solo from architecture to deployment. Skilled across the full stack: React/Next.js on the frontend, Node.js/Express APIs on the backend, MongoDB with geospatial queries, and real-time systems with Socket.io and Redis. Also maintain UrduMagic, an open-source npm package for Urdu/English translation with a 10,000+ entry offline dictionary and full Next.js SSR support. Comfortable owning a product end-to-end — auth, payments, admin tooling, and infrastructure — as well as collaborating with remote clients.

WORK EXPERIENCE

- UrduMagic — Creator & Maintainer (Open Source)

2026- PRESENT

 - Built and published UrduMagic, an open-source npm library (v0.3.0) for offline whole-site English/Urdu translation with full Next.js SSR support, powered by a 10,000+ entry dictionary.
 - Used in production on Atmandi.com for its bilingual experience and Urdu SEO.
 - Stack: TypeScript, npm, Next.js)
- Atmandi — Founder & Full-Stack Developer (Solo)

2025- PRESENT

 - Founded and built Atmandi, Pakistan's first livestock marketplace, solo — a Next.js 14 + Node.js/Express monorepo spanning web, mobile (Expo), and shared packages.
 - Built advanced search with geospatial radius search, relevance scoring, and MongoDB aggregation pipelines, plus a real-time chat system (Socket.io, Redis presence).
 - Implemented authentication (Google OAuth, JWT) and a full admin panel for moderation, disputes, and revenue analytics.
 - Built payment tracking for listing upgrades (Easypaisa, JazzCash, bank transfer) and shipped bilingual (English/Urdu) support.
 - Stack: Next.js 14, Node.js, Express, TypeScript, MongoDB, Socket.io, Redis, Cloudinary, JWT/Passport.js
- TechAbout — Lahore, Pakistan

AUGUST 2024 - OCTOBER 2024 (3 MONTHS)

Front-End Developer

 - Built responsive web apps with customized WordPress sites (themes, plugins, CMS).
 - Created user-friendly, responsive web applications compatible with all devices
- Full-Stack Developer (MERN Stack)

2023- PRESENT

Freelance | Remote

 - Delivered full-stack web apps (React, Node.js, Express, MongoDB) for clients across multiple industries, handling both frontend UI work and backend/API development.
